

Safety Audits

In addition to the numerous systems of checks and balance in place, including the Federal Aviation Administration inspections, Tavaero Jet Charter and Management is audited annually by independent auditing firms. Our onsite audit is performed by Wyvern. We are also rated ARG/US Gold.

Wyvern specializes in performing on-site safety audits of Part 135 charter operators' aircraft, flight crews, and maintenance the entire operation on behalf of corporate customers that sponsor audits. Also known as safety evaluations, Wyvern performs audits on a select group of charter operators as recommended by the customers

The ARG/US audit is a true process and systems audit that verifies that the air carrier or flight department is managed, organized and run in a manner conducive to continued safe operations. Focusing on all areas of a flight department, from maintenance to flight operations, the ARG/US on-site safety audit provides a method to gain an objective insight into all segments of an operation.
