

# TAVAERO REWARDS INCENTIVE PROGRAM T.R.I.P

## Program Description

Designed to reward our existing and future clients for their patronage, T.R.I.P. has been formed to provide our clients with a large, high quality selection of gifts for various uses.

The program is modeled to a "*points*" system where miles flown for trips are converted into points on a "one-to-one" conversion factor. These points are updated into the clients individual secure databases and accrue on an ongoing basis. For instance, a trip of 800 nautical miles would equate to 800 points, enough for selection of a gift from the 50 (Series "A") gifts available.

Clients are able to "Log In" to the T.R.I.P. sight and browse the vast selection of gifts available for redemption. Once logged in, the client can view expanded descriptions of items, see larger images of gifts, get questions answered via the convenient Help options and instantly view their available points balance.

Gifts are divided into various point classifications commensurate with higher point levels. Simply put, the more trips you book, the more points you accrue.

Once selected, gifts are shipped directly to the clients' specified shipping address and the respective points are deducted from their accounts. Standard shipping (UPS ground with 3-6 week delivery) is included with the item when the order is placed. Account maintenance is a snap as well. Once you've logged into the system, you can update your password and modify your e-mail/shipping/contact information.

## Program Notes

- Points may not be transferred/sold to other users.
- Additional points to upgrade to the next level of gift selection may not be purchased.
- Multiple accounts may be arranged for a single corporation/client under different names with different passwords, etc.
- A valid e-mail address is required for account set-up.
- Charter Brokers/Corporate Dispatchers now eligible for enrollment.***

While there is no requirement for you to become a member of our popular program, we pose the question to you... "why not?".
